Note: Not all medications listed are covered by all MDHHS Programs. Check individual program coverage. For program drug coverage information, go to <https://michigan.magellanrx.com/provider/>, open “Documents” and click on “Fee for Service Drug Coverage” then open “MPPL Including Coverage Information” for all programs.

Michigan Department of Health and Human Services, in conjunction with Magellan Medicaid Administration, is pleased to offer an alternative means to submit pharmacy prior authorization (PA) requests for prescription drugs. This web-based process is designed to save prescribers time by providing a real-time pharmacy prior authorization. This process will supplement the more traditional means of requesting PAs by phone or fax, which will still be available to providers. In order to use Web PA, provider designees will need to register to receive a logon and password for the Web PA system. Detailed information on user registration and Web PA, including a web-based tutorial, and a complete instruction is available at <https://michigan.magellanrx.com/provider/>. For questions or assistance with registration, call the Magellan Medicaid Administration Web Support Call Center at 800-241-8726.
